WELCOME MESSAGE

Respected Seniors and Dear Colleagues,

It gives us great pleasure to invite you to the Second Annual Conference of the Bombay Spine Society (BSSCON-2023), to be held from 23rd to 25th June, 2023 at Sion Hospital, Mumbai.

Our theme for this year is "Revision Spine Surgery." This year we will focus on risk factors, clinical assessment and treatment strategies for revision spine surgeries. Besides didactic talks, the emphasis will be on case-based discussion and one-to-one interaction between the delegates and the faculty. The aim of every session will be to present succinct take-home messages that will help the participants in decision-making for revision spine surgeries.

The academic highlights include sessions on common revision spine surgery scenarios, e.g. recurrent disc prolapse, failed lumbar spine instrumentation, spinal infections, dural injuries, and construct failures in osteoporotic spine. Furthermore, in the tradition of past BSS conferences, a day of the conference is dedicated to live spine surgery demonstrations. In addition, limited seats are available for participating in a full-day cadaver workshop (either lumbar or cervical spine). Therefore, please register early for the workshops if you intend to attend them.

We take great pleasure in hosting this annual meeting and hope that the program will make your stay productive and rewarding. We look forward to welcoming you to Mumbai.
